

MW Modular 11" Full Floater

90055 Top Alcohol 11"
Modular Assembly

The Mark Williams 11" Modular rear end has been designed to handle the harsh environment of today's Top Alcohol and Pro Modified cars. This assembly is based on a ring and pinion designed by Richmond Gear and produced exclusively for Mark Williams Enterprises. Features include an 11" diameter ring gear and 40 spline pinion shaft. Gear ratios currently available are 2.91, 3.20, 3.89, 4.10, 4.29, 4.57 and 5.83. With current MW 9" modular users in mind, the center casting is 16" wide and has a 2.25" hypoid distance (same as a 9" Ford) to allow an easy conversion of any application currently using the MW 9" modular rear. The MW floater end bells, the complete MW floater assembly and even the axles or one piece axle can all be used with the assembly. The unique design allows easy removal of the rear cover to inspect the ring gear, while the removable pinion support gives access to the pinion gear. With the beefy 11" gears, the use of premium materials and features carried over from the other MW race proven modular rears, the MW 11" offers unmatched strength and reliability.

MODULAR 11" ASSEMBLIES

- 90750 Complete 11" Modular Assembly13,188.00
Complete 90000 center with MW full floater assembly with lightened steel brakes, end bells and axles. 210#

- 90755 Complete 11" Modular Assembly15,683.00
Complete 90000 center with MW full floater assembly with MW carbon brakes, end bells and axles. 198#

- 90000 11" Modular Center Section8716.05
Fully assembled center casting with gears, spool, pinion support, coupler and hardware. For easy swaps.

Snyder Motorsports A/FC: Over 440 runs on the original 11" ring and pinion, finally changed ratios and still going strong.
