Pro Mod and Nitro Coupe racers have an option when it comes to rear end assemblies. Ring and pinion life for the 9” Ford type rears can be a constant issue. The 11” Modular make those issues a thing of the past. The 11” Pro 4-link rear from Mark Williams represents a massive gear life improvement for high horsepower 4-link drag race cars such as Pro Mods and Nitro Coups.

At the heart is a rugged center module that is cast from the same tough aircraft alloy used in all MW cast aluminum components. It also incorporates the thru bolt design carried with a strength enhancing cover. The bolt pattern on the mounting faces on both sides of the center is the same as MW’s 9” modular rear. This means, with slight modification, all the existing MW modular hardware such as 4 link brackets, lower tie bar, end bells and floater assembly will bolt directly to this new 11” assembly, simplifying the upgrade from a MW 9” modular. The gear set features an 11” diameter (12” pitch diameter) ring gear and 40-spline pinion shaft are all produced in the USA with the most popular and special ratios available.

**MODULAR 11” PRO 4-LINK ASSEMBLIES**

- **90775** Pro-Link 11” Floater Assembly
- **90780** Pro-Mod 4-Link carbon floater with 4130 steel brackets
- **90785** Complete 11” Mod 4-Link Assembly . . . . .16,606.52
  Uses 4130 steel 4-link brackets, full floater assembly with MW carbon/carbon disc brakes, end bells and axles. (17-1/4” centers 34-5/8” wheel to wheel).

See charts on pages 53 and 54 for 4-link widths and floater spindle combinations. Special narrow steel 4-link as above can be special built. Call for pricing on special widths and combinations.
