

# FULL FLOATER HUB KITS

The MW Full Floater assembly is required by most sanctioning bodies for Fuel, Alcohol, and Pro Modified racecars. In the event of an axle failure, the floating hub will prevent wheel loss. An added performance advantage is that the wheel alignment is maintained under high acceleration load situations, preventing a "toe in" condition. The Series II floater assemblies feature a handful of new improvements. A larger inside bearing allows thicker spindle cross-section preventing crack propagation under severe tire-shake conditions. The forged aluminum hub has improved stud retention with deeper counter-bores and longer threads engagement. Hubs are available with either 4-3/4", 5" or 5-1/2" X 5 hole bolt circle. Spindles are produced from forged 4340 chrome-nickel-molybdenum steel and heat-treated. Floater axles are available in the standard 4340 or 300M, solid or gun-drilled. Drive plates are 40-spline and heat-treated alloy steel or aluminum drive plates with steel spline insert as a option.

Kits are available with conventional steel rotors or carbon-carbon setups that feature our Slot-Drive™ rotor attachment technology. Upgrade options include ceramic wheel bearings and four caliper brake kits. The floater kits are also available with long spindles, or without spindles to fit modular housings already equipped with spindles.

## STANDARD FLOATER KITS

### Kits Without Spindles

95475 Full Floater Hub Assembly	3334.00
<i>40 spline axles, 4-3/4" x 5 hole bolt pattern, Less floater spindles.</i>	
95750 Full Floater Hub Assembly	3334.00
<i>40 spline axles, 5" x 5 hole bolt pattern. Less floater spindles.</i>	
95850 Full Floater Hub Assembly	3334.00
<i>40 spline axles, 5-1/2" x 5 hole bolt pattern. Less floater spindles.</i>	

### Complete Kits

95470 Full Floater Hub Assembly	4397.00
<i>40 spline axles, 4-3/4" x 5 hole bolt pattern</i>	
95700 Full Floater Hub Assembly	4397.00
<i>40 spline axles, 5" x 5 hole bolt pattern.</i>	
95800 Full Floater Hub Assembly	4397.00
<i>40 spline axles, 5-1/2" x 5 hole bolt pattern.</i>	

## CARBON/CARBON FLOATER KITS

95485 Full Floater Hub Assembly, Carbon	6250.00
<i>40 spline axles, 4-3/4" x 5 hole bolt pattern. Less floater spindles.</i>	
95450 Full Floater Hub Assembly, Carbon	6250.00
<i>40 spline axles, 5" x 5 hole bolt pattern. Less floater spindles.</i>	
95570 Full Floater Hub Assembly, Carbon	6250.00
<i>40 spline axles, 5-1/2" x 5 hole bolt pattern. Less floater spindles.</i>	

95480 Full Floater Hub Assembly, Carbon	7308.00
<i>40 spline axles, 4-3/4" x 5" bolt pattern.</i>	
95400 Full Floater Hub Assembly, Carbon	7308.00
<i>40 spline axles, 5" x 5 hole bolt pattern.</i>	
95555 Full Floater Hub Assembly, Carbon	7308.00
<i>40 spline axles, 5 x 5" bolt pattern.</i>	

## FLOATER KIT OPTIONS

11-3/8" Diameter Disc for 15" Wheels	P.O.A.
Dual Caliper Option (4 Caliper)	P.O.A.
Titanium Wheel Studs	P.O.A.
Aluminum Lug Nuts	P.O.A.
300M Material Axle Shafts gun drilled	P.O.A.

Floater Axles (non-standard lengths*)	P.O.A.
Long Spindle Upgrade	P.O.A.
Ceramic Bearing upgrade	P.O.A.
Aluminum Drive Plates upgrade	P.O.A.

\* Stocked axle lengths are for 32" to 38" wheel to wheel
