

## ROCK CRAWLER DISC BRAKE KITS

75910 Kit on Reid Racing  
Ford King Pin Knuckle

MW Disc Brake Kits are produced with attention to the details. We have used a larger 14" diameter rotor to increase the holding power. The brake rotors are produced from abrasive resistant steel that is double disc ground to be flat and parallel. The Slot Drive™ rotor attachment system is a major improvement for prolonging brake rotor life. This system allows the Disc to expand and contract with the disc temperature without putting stress on the attachment fasteners. Disc cupping common to competitors product is eliminated with this exclusive attachment method.

MW calipers are exceptionally strong, compact, with superior bridge strength over similar products. The material used in MW calipers is stronger than common 6061 aluminum billet calipers. MW calipers use four 7/16" diameter body fasteners plus a 5/16" diameter bridge bolt that increases the calipers rigidity. The design advantages create significant increases in holding power. MW calipers utilize a 3/8" hex bleeder screws in each end, no right and left hand calipers. That feature allows the MW Caliper to be mounted in many clock positions and bled without removing. Internal fluid passages eliminate external damage prone lines.

All the Caliper mount brackets are billet 7075-T6 aluminum, Adapter rotor "hats" are produced from proprietary alloy aluminum, drilled to accommodate matching hub patterns. The 71900 kits for the F350 unit hub will accommodate the existing 170 mm metric and 6-1/2 x 8 hole inch patterns. All the required mounting hardware and MW calipers with linings are included.

75900 Brake Kit, F350 Front Knuckle .....1625.00  
*2005 or later F350 or Reid Racing front knuckle*

75905 Brake Kit, F450 F550 Front Knuckle .....1625.00  
*2005 and later F450*

75910 Brake Kit, Ford King Pin Knuckle .....1625.00  
*1975 to mid 1991 Ford Kingpin Knuckle*

75915 Chevrolet King Pin Knuckle .....1625.00  
*1977 to mid 1991*

## UNIT HUB & REAR DISC BRAKE KITS

71900 Brake Kit, Unit Hub .....1625.00  
*For use with Timken F350 Unit hubs in conjunction with the 50290 or 50295 weld cup. Adaptor has 6-1/2 x 8 hole and 170mm x 8 hole pattern.*

71905 GM 14 Bolt Rear Brake kit .....1625.00  
*Mounts to the original 14 bolt hub with the original 14 Bolt rear backing plate mount. Kit is shown with 50250 axle drive plate kit.*
